

Systems Engineer

We are a rapidly growing Melbourne based small business looking for a bright, enthusiastic, proactive, “all rounded” Systems Engineer who is able to work autonomously and in a team on and off the road.

The desirable candidate will have the opportunity to work in a fast paced environment with exposure to a vast range of technologies. We are seeking someone dedicated that can work on the fly, improvise, who has the willingness to learn, who has an attitude to tackle challenges head-on and will put in the extra time to complete the job at hand if ever required.

The position available is initially part-time contract based and highly flexible, with the potential for full-time employment. On-going training and skills development opportunities are available.

Role:

- Research, plan, design, implement, maintain, troubleshoot and resolve a range of different hardware and software issues
- Network administration - Build, maintain, manage and support the network and security infrastructure
- Build, maintain, deploy and support Windows and Apple SOE's and non-SOE's
- Project management
- Work closely with and support our clients in a professional manner
- Maintain deadlines and SLA's

Requirements:

- Ideally you will have at least 2 years experience in an IT support/Systems Engineer or similar role supporting Microsoft Windows 2003+ environments (Graduates may apply but will be required to sit a skills assessment)
- Server virtualization experience
- Be a motivated, self-starter who is able to work autonomously, or as part of a team as the work dictates
- Be resourceful - able to find and research information in order to derive appropriate solutions to problems
- Be punctual and thorough
- Able to document technical procedures, and follow documentation
- Ability to troubleshoot and fault find through systematic processes of observation and elimination
- Exceptional verbal and written communication skills
- A current Australian driver's license
- Own vehicle and mobile phone

- Travel distances on the road if required
- A permanent Australian resident
- And of course, the right attitude

Highly regarded:

- Microsoft Certification
- Apple Certification and/or experience
- VMware Certification and/or experience
- Cisco Certification
- Video Conferencing experience
- Telecommunications Certification and/or experience
- Cabling Certification and/or experience
- Education sector experience
- A current Working with Children's Check
